

Handwash Training – UV lamps to use with GlitterBug®

GB Disclosure Centre

Doing a demonstration in a bright environment? No problem! Just use the GB Disclosure Centre. Place hands inside the Centre as shown and turn on the GlowBar. Fluorescent particles left on hands will sparkle under the UVA illumination.

The "ears" may be used to store GlitterBug® Potion or Powder.

Measures 45.7 x 25.4 x 35.6cm (WxHxD).

A GlowBar, 4 D-cell batteries and a 6V A/C adapter are a part of the Disclosure Centre.

LED Lamp

New powerful UV torch to highlight areas not washed after using GlitterBug.

This lamp uses the latest LED technology to provide a very bright UV output. Unit has 5 LEDs enabling it to shine over a broad area, without having to dim surrounding lights.

Momentary light operation with the end-mounted press button, or continuous operation by screwing the end-cap all the way in.

Life of LED lamp is approximately 20,000 hours. LED lights are not replaceable.

Lamp runs on 2 Lithium 123 batteries.

LED lamp measures 11.5cm in length
